ACADEMIC PROJECTS

➤ Travel Management System :

Project is being designed and developed by Java (Swing).

Problem Statement:

- I. The manual system requires the passenger to contact the company's travel agent, go to their office and wait for their turn just to get information about travel times and charges.
 - II. There is risk of not getting the transportation which was promised or it not being available at all. This can cause huge problem.
 - III. Pick and drop service from the company's park to the hotel will cost even more in addition to the transport cost of the actual tri
- Covid Hospital Management System :
- Multipage Website.
- i. In Covid Hospital Management we show user the real time data ,available beds and ICU.
 - ii. User can take appointment from doctor that helps user unnecessary visits.
